

**FOR IMMEDIATE RELEASE**

**U.S. Army Automated Movement and Identification Solutions (AMIS)  
Nominees Receive 2012 SOLE Awards**

*Alexandria, Va., October 31, 2012* – The U.S. Army Product Director, Automated Movement and Identification Solutions (AMIS), a member of the Project Manager, Army Enterprise System Integration Program (PM AESIP), an office within the Program Executive Office, Enterprise Information Systems (PEO EIS) located at Fort Belvoir, Va. is pleased to announce that seven AMIS members were acclaimed by the Greater Washington Area Chapter (GWAC), International Society of Logistics (SOLE) in recognition of outstanding services and individual contributions to the program in their specialty areas in the broad fields of logistics.

Ms. Johanna Curry, Mr. Kevin Gault, Mr. Jose´ Gonzaleztorres, Ms. Cindy Jones, Mr. Joel Lewerenz, Mr. Terrence McRae, and Ms. Angie Speight, were honored at the annual GWAC SOLE awards program at Fort Myer, Va. on October 24, 2012. They were recognized for their accomplishments in the logistics award categories of contributions to SOLE, system fielding and sustainment, financial management, software support, and information systems.

Mr. Jim Alexander, Product Director, AMIS stated, “We are once again fortunate to have so many members of the team recognized for their efforts over the past year in support of our global customer base. Our SOLE Award winners help draw attention to the value of the products and services we provide as an in-house team, and validate that we are doing important things and doing them well.”

AMIS is the DOD AIT and Radio Frequency Identification (RFID) leader providing global asset tracking, web-based RF-ITV services, and complete program life cycle support. Our products and services are customer driven and instantly accessible, with frequent updates to maintain optimization. AMIS serves as the procurement agent for AIT products and services for the DOD in support of expeditionary logistics and the joint services. In addition, we provide and sustain premier transportation and distribution IT solutions to move the war fighter and enable the Army’s transformation to a net centric fighting force.
